

FOUR DOUBTFUL STATES TO SEE G. O. P. NOMINEE

Senator Harding Leaves Tuesday For Stumping Trip.

IMPORTANT TOUR Makes Swing in Behalf Of a Republican Senate Next Term.

Marion, Oct. 12.—Senator Warren G. Harding will leave Marion late today for a speaking swing through four doubtful states, which both Democrats and Republicans deem vital to success three weeks from today—Indiana, Missouri, Kentucky and Tennessee.

These states are claimed alike by Republicans and Democrats and Senator Harding's invasion of them is considered by his managers as probably his most important trip of the campaign.

Senator Harding is making the swing not only in his own behalf but also in the interests of a Republican senate next term. In two of these states, Indiana and Missouri, Republicans have warm fights to re-elect Republican senators, James E. Watson and Seldon P. Spencer. In Kentucky, they are hopeful of defeating the Democratic incumbent, Senator J. W. Beckham, and thus add to the narrow majority of two votes which they now have in that body.

May He Last Trip
This trip may be Senator Harding's last one. With election day but three weeks away, plans for the candidate during the rest of October are exceedingly nebulous. Part of this time will be spent on the front porch here and in making some Ohio speeches, but an eastern trip is doubtful, it was said today. Final decision on the eastern invasion probably will be made at a conference of Republican campaign heads in New York today and tomorrow.

Senator Harding is personally opposed to making any more trips. He does not consider them necessary. There are, however, insistent calls from eastern states, notably New York and in the end he may have to yield to the wishes of his managers.

Senator Harding's special will leave Marion at 3:30 o'clock this afternoon, reaching Cincinnati about 5 p. m., and Chattanooga, where he will make the first speech of the trip, early Wednesday morning. From there he will go to Louisville and Indianapolis, winding up in St. Louis Saturday night.

One of the biggest political gatherings in Ohio in years will be held at Jackson, Ohio, October 20, it was announced today. An all day barbecue and burgoon will be provided, and there will be a long list of speakers, including Senator Harding, "Nick" Longworth and his wife, Alice Roosevelt Longworth, and Frank B. Willis, candidate for senator.

Republicans from all over Kentucky, West Virginia, Western Pennsylvania and southern Indiana are expected. Special trains and automobiles will carry the visitors there to the number, it is claimed of nearly 50,000. Fifty beeves will be roasted.

LORRY AMBUSHED; TWO ARE KILLED AS VOLLEY FIRED

Pitched Battle Occurs at Home of Prominent Sinn Feiner

Dublin, Oct. 12.—Two members of the Royal Irish constabulary were killed near Ballingarry today when a lorry carrying a detachment of constables was ambushed. A heavy volley was fired into the lorry as it was proceeding along the road. The constables returned the fire.

A pitched battle occurred at the home of Professor Carolan, a prominent member of the Sinn Fein organization, during a raid by policemen. The riders were attacked by Sinn Feiners.

Major Smith, a former inspector of the Royal Irish constabulary was shot dead.

British troops were active. A number of raids were made and numerous persons were arrested both here and elsewhere in Ireland.

FIRE CAUSES MILLION DOLLAR LOSS IN WEST

St. Louis, Oct. 12.—Loss estimated at \$1,000,000 was caused by a fire which destroyed the plant of the St. Louis Car Company early this morning. The fire started in the milling works and within a few minutes spread over the entire plant covering 65 acres.

INDIANS DEFEAT DODGERS AGAIN TAKING WORLD'S CHAMPIONSHIP

Cleveland 00011010x373
Brooklyn 000000000052

League Park, Cleveland, O., Oct. 12.—The 1920 World Baseball Series ended here today.

With Coveleskie proving the iron-man of one of the most sensational post-season classics ever held, Cleveland, champions of the American League, downed the National League victors, Brooklyn, by the score of 3-0 and thus returned the pennant to Ohio here today.

The game was all that the deciding contest of the big baseball argument should be, with the big Pole winning his third victory in the Series, although opposed against Burelign Grimes. Manager Wilbert Robinson's chief pitching ace, Grimes did his best, but the Indian hitters, backed by a mob of nearly mad fans, were not to be denied, and their activities with the ash splashed defeat for the Robins.

The wily Tris Speaker, who maneuvered his small pitching staff against the Dodgers with the rare generalship he poses, changed his plans at the last minute when he sent Coveleskie against the Brooklynites for the third time. He had planned to send in Uhle, who served well as a relief pitcher, but fearful lest the youth break under the strain, he reversed his plans and sent the more experienced hurler to the mound.

The cleverness of the move was proven by the final score of the game and it gave further proof that the quality of the Cleveland pitching staff counted in the big-time dispute over the quantity which Manager Robinson had at his disposal. There were many who thought that the Robins pilot would send "Rube" Marquard to the hillock in the final battle but he evidently felt that it would take the best he had to offer to defeat the Cleveland club playing in the inspiration of home-town surroundings and so he returned his ace,

Grimes to the mound. The veteran was unable to repeat his performance of the initial game he pitched and while he offered a splendid article of ball, the slender lead gained by the tribesmen in the fourth was amply sufficient to hang crepe on the hopes of the Easterners.

Grimes was not knocked from the box by any succession of base-hits such as caused him to be chased to the showers in the Sunday conflict, but the Lake Erie pill tossers insisted upon pecking wearily at his delivery and making good their attempts in each of several stanzas.

The first run came in the fourth and fans prophesied it as the beginning of the end. Unable to hit the offerings of the iron-man Coveleskie the Dodgers were helpless in their periods at the bat. In the fifth frame the Indians added another counter and in the seventh they repeated, making the final count 3-0.

The chagrined Grimes was relieved in the eighth verse to permit a pinch hitter to bat for him and Manauux took his place in this inning. The eighth was scoreless and Brooklyn could not even save itself a shut out in the ninth.

The feat of Coveleskie will go down with the famous triple play of Wambamans and the home run of Smith, as one of the brightest spots in the 1920 world series. The big Pole defeated the Dodgers three times seeming to have the old jinx on their hitters and turning them back easily in each attempt.

Coveleskie permitted the defeated Dodgers just five hits, while the Indians scored seven safe blows from the delivery of Grimes and Manauux. Cleveland was guilty of three errors while Brooklyn committed two misdeeds.

WOMEN SERVE ON GREENE COUNTY JURY TUESDAY FOR FIRST TIME IN HISTORY

Six Members Of the Recently Enfranchised Sex Members Of Jury Which Hears Case Tuesday Morning—Pictures Are Taken.

For the first time in the history of Greene County women served on a jury Tuesday. The venire was a special one, called by the Common Pleas court in the case of f Isabelle Winter vs Andrew Winter et al to testify that the will purported to be the last will and testament of the late Mrs. Nancy Winter of Cedarville was her real will.

The case was settled out of court several days ago but in order to avoid further litigation it was necessary for a jury to pass a verdict on the matter. Each of the jurors signed their names to the instructed verdict in the court room without retiring to the jury room.

The jury was composed of six men and six women. They were Mrs. Carrie L. Flatter, Mrs. Mary Wood, Mrs. Effie Stevenson, Mrs. Della H. Snodgrass, Mrs. Mary L. Collins, Miss Katherine C. Higgins, C. E. Arbogast, N. P. Harness, A. E. Kildow, Jacob Stevens, C. O. Conklin and James Watkins.

In instructing the jury, Judge C. H. Kyle, who was sitting in the case said that in calling a special venire for the case he thought it fitting that women should serve owing to the fact that it was a women's will that was being contested. He congratulated the women on being the first to serve on a jury in Greene County, and said "Your names will go down into history as the first women jurors of the county. I am sorry that this is not a litigated case, because I would like for you to have the opportunity to hear a real case and the manner in which it is handled."

He also paid a compliment to the attorneys of Greene County when he said, "Cases are better tried in Greene County than in any place I have been and I have served on many benches."

Each of the attorneys in the case made brief talks complimenting the women. W. L. Miller told the women he was proud to be an attorney in the first case in Greene County in which women were serving on the jury.

"It is unusually fitting," he said, "that you should serve today Columbus Day, because America has allied intervention."

Copenhagen, Oct. 12.—Lithuania is seeking intervention by the allies to prevent further occupation of the country by Polish troops, following the seizure of Vilna, according to advices from Kovno today.

Warsaw is reported to have repudiated the action of General Zeligowski, leader of the Polish troops that seized Vilna, and is arranging for a new Polish-Lithuanian conference to open tomorrow. Gen. Zeligowski has repudiated the French proposal that Vilna be made a free city.

MACSWINEY STILL MENTALLY ALERT ON SIXTY FIRST DAY

Hunger Striking Lord Mayor Spends Fairly Restful Night.

Dublin, Oct. 12.—Terence MacSwiney, hunger striking lord mayor of Cork, had a fairly restful night in the infirmary at Brixton jail. This is the sixty-first day of his hunger strike.

Arthur O'Brien, president of the Irish self-determination league and so-called "Sinn Rein ambassador in London," charged that Premier Lloyd George's speech at Carnarvon on Saturday shows that there is a connection between Dublin Castle—the seat of British authority in Ireland—and the reprisal attacks of the "Black and Tan" policemen.

"Lloyd George draws a picture of the British empire shivering in fear before the little island of Ireland," said O'Brien. "His declarations were more venomous but their only effect will be to strengthen the Irish people in their destination to get their freedom."

CLEVELAND BANDITS ROB BOOKKEEPER

Cleveland, Oct. 12.—Two auto bandits, armed with revolvers, held up and robbed Lillian Erb, bookkeeper of the Excelsior Laundry shortly after 8 o'clock this morning. Miss Erb was on her way to work with the laundry company's cash, having taken it home last night because the safe was out of order.

Police believe that some one on the inside must have tipped off the condition of the safe and the fact that the cashier had taken the money home with her to the robbers.

The bandits made their escape.

ARTICLE 10 TO BE IMPORTANT POINT OF SPEECH

Governor Cox Scheduled To Make Address In Peoria Tuesday.

En Route With Governor Cox, Springfield, Ill., Oct. 12.—After spending four hours on a siding in the railroad yards here, Governor James M. Cox left early this morning for Peoria, where he is scheduled to make the first important speech of the day. The governor's special train came up from St. Louis immediately following his speech before 15,000 persons at the coliseum there last night, but remained parked in the yards from 2:30 a. m. until 7:15 a. m.

In his speech at Peoria, Governor Cox planned to lay particular stress upon article X of the League of Nations covenant. This provision, the governor holds, does not threaten the sovereignty of the United States in the least and is merely an international guarantee that larger nations will "keep off the grass" as regards their weaker neighbors.

The governor believes the word "advise" as employed in article X means that the council of the League will take into consideration all conditions entering into any such international aggression and then make recommendation as to what steps should be taken to punish the offender. The word "preserve" as used in the same article, Gov. Cox is convinced, does not of necessity imply that force would be used by the League in preventing transgression. He argues that such a reprimand as the breaking off of diplomatic relations would in many instances be sufficient to bring any recalcitrant nation to terms and believe a commercial embargo which the league covenant provides shall be placed upon any transgressing member would make the use of force unnecessary.

En route to Peoria, Gov. Cox, will make a number of brief rear platform speeches and from Peoria he will go to Lafayette, Ind. where he speaks tonight. Tomorrow he returns to Columbus.

FIVE KILLED IN STEAMSHIP BLAST

Five workmen were killed and scores of others injured when an explosion in the hold of the oil tanker G. R. Crowe, undergoing repairs in the Shewan Shipyards, Brooklyn, occurred. It is believed the explosion was caused by the flame of an acetylene torch coming into contact with a pocket

of gas in the hold of the tanker. The photograph on the left shows a view of the wreckage on the deck of the Crowe. The hole in the roof of the photo on the right was made when the body of a workman, blown one hundred feet in the air, landed with such force that it tore a great hole in the tin.

COMMERCIAL RELATIONS BETWEEN ENGLAND AND RUSSIA CALLED OFF

Dispute Over Release Of British Prisoners and Threat Of Great Britain To Sink Soviet Ships Given As Cause Of Action.

Warsaw, Oct. 11, via London, Oct. 12.—Further delay developed today in the signing of the Russo-Polish peace protocol, but the signatures probably will be affixed tomorrow (Tuesday). The armistice becomes effective on October 18. Russia has agreed not to interfere in the domestic affairs of Poland and Lithuania.

London, Oct. 12.—Negotiations between Gregory Krassin, head of the

Bolshevik trade mission and the British government for the opening of commercial relations between soviet Russia and Great Britain have been suspended, it was learned today. This suspension resulted from the following causes:

1. The dispute between Moscow and London over the release of British prisoners.
2. Threat of Great Britain to sink any Russian submarines found at sea and the warning of Earl Curzon that Great Britain could not undertake to promise not to give aid to Russia's military enemies.

Moscow has not yet replied to the British note threatening to sink Russian submarines, but M. Krassin has been notified that he will receive instructions on the matter in due time.

WALKOUT OF MINERS IN ENGLISH COAL FIELDS EXPECTED

Second Referendum Vote May Be Deciding Factor.

London, Oct. 12.—Early returns from coal fields indicated today that the second referendum vote of the miners upon the question of a general strike would be in favor of a walk-out. The first returns from Wales were in favor of rejection of the tentative agreement between the miners and the colliery owners, but the vote was incomplete, and it was pointed out that the Welsh mine-workers originally took the lead in the movement for a general strike.

JAPAN UNABLE TO GET RACIAL EQUALITY, SAID

Indications Point To Defeat Of Japanese Issue at Meeting.

LEAGUE MEETS SOON Nations Opposed To Japanese Proposal According To Late Reports.

Paris, Oct. 12.—A careful canvass of diplomats indicated today that Japan will suffer a humiliating defeat if she attempts to force through a racial equality resolution at the first meeting of the assembly of the League of Nations at Geneva next month.

All the indications are that Japan will be beaten by a three fourths vote if she attempts to put through a resolution calling for an equality of nationals. Viscount Ishii, former foreign minister of Japan and now the Japanese ambassador to France, admitted to the International News Service that he is going to Geneva as one of the representatives of this country. Viscount Ishii is known as an able diplomat and one of the strong "men" among Japanese statesmen. Asked if he would present a resolution demanding racial equality, Viscount Ishii replied:

"I have not yet received any instructions from my government regarding questions which should figure in the order of the day at Geneva." It is learned from an authoritative source that Japan has already been informed by her friends among the big powers that she would certainly meet with defeat if she attempted to have the racial equality resolution passed. Japan was advised not to make any attempt to have the immigration resolution settled in her favor at this time, particularly when the United States is aroused over the question.

Despite the friendly advice of these powers the Japanese are still maneuvering to obtain votes to support some sort of mild resolution to save the face of the government in power at Tokyo. The line up against a "racial equality" resolution probably would be: Argentina, Belgium, Brazil, Canada, Australia, India, New Zealand, South Africa, Chile, Colombia, Cuba, Denmark, Greece, Guatemala, Holland, Norway, Panama, Paraguay, Peru, Poland, Salvador, Sweden and Uruguay, a total of 23 of the 38 nations voting at Geneva.

The estimates and plans for the remodeling of the club house, that have been received, were turned over to the chairman of the house committee as a nucleus for that committee to work on. Speedy action on the part of the committee is anticipated, as it is hoped to have the club house ready

COX AND HARDING NECK AND NECK IN LOCAL VOTE

A count of the local straw balloting in the Rexall straw votes, taken at the Sayre & Hemphill drug store, shows that within the last few days, Cox and Harding have been running almost neck and neck.

The votes show that 7 men voted for Harding and one for Cox, while 1 woman voted for Harding and six women for Cox. The vote is unusual in that the women cast more votes for Cox than for Harding while the men favored the Republican candidate.

EDNA KENT FORBES

ANSWERS TO READERS
L. D. H.—There is nothing that will destroy the color of the hair, without destroying the hair also. I realize that it is a very trying period when the hair is neither colorful nor silvery. It is trying, merely because it calls for very good grooming and not because it is unattractive. Nothing looks so dowdy as hair that is partially gray and hanging in wisps all over the head, with possibly a whole fringe of it flying carelessly around the back of the neck. Pure white hair with a truly elderly face could stand a certain amount of care, less grooming but the half grey head that is neglected suggests a down-at-the-heels mind.

The woman who has such hair should look upon it as an asset, as her skin is changing its tints also and the whole transition should be made as interesting as that of her budding daughter. Whoever has raised a girl without finding her transition from childhood to womanhood a trying time since there was a continual revising of styles, colors and cuts of clothing until she finally attained some stable place in her development.

But, to return to the half grey hair supposing the owner of it does appreciate the advantage she is gaining through this chemical change, she will see to it that the scalp is kept clean, well aired and massaged (or the vibrator used on it) so that the circulation is free. The hair will be glossy and very healthy, which will make it attractive in itself, she will then practice with various ways of dressing it so the lines will be becoming to her face.

Such hair should be kept very soft and fluffy, not by burning the vitality from it with hot curlers, but by soft kid curlers if any curling must be done. Usually the hair at that age can be trained to be fluffy by a process of lifting it off the scalp by means of a coarse comb. This is

The Best Cough Syrup is Home-made.

Here's an easy way to save \$2, and yet have the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home.

Into a pint bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup to fill up the pint. Or, if desired, use clarified molasses, honey, or corn syrup instead of sugar syrup. Either way, it tastes good, never spoils, and gives you a full pint of better cough remedy than you could buy ready-made for three times its cost.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membranes, and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

the fullness of the net is at the lower part of the head at the back. This will be done after all the stray hairs have been brushed up from the neck and confined securely into the net.

The shampoo is important during this turning period, as most soaps will turn grey hair yellow. Only a pure white soap should be used. A safe shampoo is that made from alcohol well diluted with water—but this later method is only necessary in case there is a doubt about the quality of the soap. The woman with this turning hair will also find colors becoming to her that she has never looked well in, even in her early youth. So she should make a study of herself and revise her color combinations as well as her style of hair dressing.

After the hair is dressed, if there are any flying ends use a hair net over the entire head, so it will catch up the stray hairs that look so untidy over the neck. This net should not be put over the hair so tightly that it packs the hair and destroys its fluffiness. Rather use many tiny hair pins to keep the net from flying away than to secure it firmly over the head by tightening it and packing the hair. The final place to gather up

The Best Cough Syrup is Home-made.

Here's an easy way to save \$2, and yet have the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home.

Into a pint bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup to fill up the pint. Or, if desired, use clarified molasses, honey, or corn syrup instead of sugar syrup. Either way, it tastes good, never spoils, and gives you a full pint of better cough remedy than you could buy ready-made for three times its cost.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membranes, and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

Mrs. A. C. Davis, Home Ave., says: "Doan's Kidney Pills have surely been fine when we have used them. My kidney trouble has been a weakness in my back and sharp pains through it. When I bent over, I could hardly straighten. Doan's Kidney Pills, which I bought at Donges' Drug Store soon cured me and I haven't had any kidney trouble since, so I am sure the cure is permanent."

DON SUNG Chinese for Egg-Laying

13 Eggs A Day From 17 Young Pullets

Mrs. Niles Starts 6-months Old Pullets Laying. Tells How.

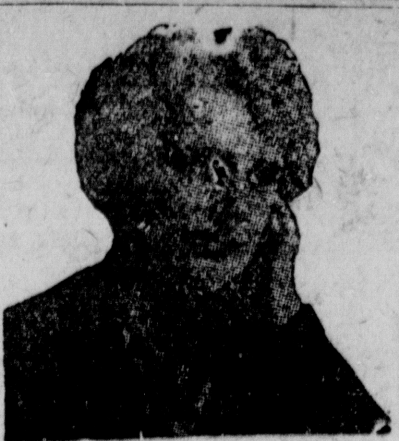

"Early in November, I bought a package of Don Sung and started giving it to 17 May pullets. In the first 30 days they laid 138 lovely eggs. All through December I got 11 to 13 eggs a day."—Mrs. E. S. Niles, R. F. D. 2, Lucerne, Ind.

Mrs. Niles found how to start young pullets laying and keep them laying all winter. The same method helps hens through the moult, and starts them laying. You can test this at our risk.

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, simply tell us and your money will be cheerfully refunded.

Don Sung (Chinese for egg-laying) is a scientific tonic and conditioner. It is easily given in the feed, improves the hen's health and makes her stronger and more active. It tones up the egg-laying organs, and gets the eggs, no matter how cold or wet the weather.

REGULAR OPEN FORUM MEETINGS WILL BE CONDUCTED BY C. OF C. DURING YEAR

The board of directors of the Chamber of Commerce will resort to a plan of regular open forum meetings to help in formulating the policies of the organization during the next year, it was decided at a meeting of the board held Monday evening.

For this reason, a good attendance is urged at the first open forum meeting of the organization, to be held next Friday evening, plans for which will be laid at a meeting of the forum committee to be held Tuesday evening. At these meetings every member will be given the opportunity to voice his opinions regarding the policies of the Chamber.

The board of directors endorsed the American City Bureau supplementary campaign, which will be held in this city next week, as part of the organization service given by the Bureau. Letters will be mailed to the membership of the Chamber during the next few days, asking that each will give his assistance in the membership extension campaign to be conducted in this city by Mr. Kneebone, of the American City Bureau offices. Mr. Kneebone, had charge of the big campaign conducted in Dayton several weeks ago.

The Chamber of Commerce finished the past year with about 375 members in the organization and during the coming week's campaign the continued support of these members will be urged and an effort made to secure new members. It is the opinion of the directors that many citizens doubted the advantages of a modern Chamber of Commerce at the time of the organization campaign but that the achievements of the Chamber in the past year will cause many to want to join the Chamber at the beginning of the second year, and these people will be invited to sign up during the coming week.

coming week.

President F. W. Dodds, appointed his Budget Commission at Monday night's meeting, the committee consisting of Dr. A. M. Patterson, R. A. Kelly and Judge J. AUTHORIZE SECRETARY TO MAKE TRIP

The Board of Directors of the Chamber of Commerce at its meeting held Monday evening, authorizes the trip of Secretary L. C. Tingley, who will attend the National Association of Commercial Organization Secretaries to be held at the Hotel LaSalle, Chicago, October 25, 26 and 27.

The board members felt that these conventions and meetings of secretaries are helpful to each in securing new ideas as the program of the convention will introduce many new plans and branches of service to be taken up by the commercial secretaries. Mr. Tingley will represent the Xenia Chamber at the conclave.

Catarrh Prescription Here From Scotland Successful Hay Fever Preventive

In Scotland just before Hay Fever times comes round, people start at once to breathe air which they purify themselves by a very simple method.

One of Scotland's learned doctors discovered it, prescribed it and soon its power to soothe and heal the inflamed membranes of the nose and throat in all cases of Hay Fever, Rose Colds, Common Colds and Catarrh was heralded all over Scotland.

Recently the formula of this successful prescription reached America, and now the better pharmacies are dispensing it freely under the name of "HAELANOL," and it's so easy and simple to use, so acutely penetrating that a few breaths will open up clogged nostrils and soothe and heal the sore, inflamed membrane. Sohn's Drug Store sells lots of both sizes—50 cents and \$1.25. The Haelanol Company, Inc., Rochester, N. Y.

Escaped an Operation

There is nothing in the world a woman so much fears as a surgical operation. Often they are necessary, but often not; and many have been avoided by the timely use of that good old-fashioned root and herb remedy Lydia E. Pinkham's Vegetable Compound. If you are suffering from some dread ailment peculiar to your sex, why not profit by the experience of these two women whose letters follow?

These Two Women Saved from Operations.

Cedar Rapids, Ia.—"After the birth of my last child I had such painful spells they would unfit me entirely for my housework. I suffered for months and the doctor said that my trouble was organic uterus and I would have to have an operation. That was an awful thing to me, with a young baby and four other children, so one day I thought of Lydia E. Pinkham's Vegetable Compound and how it had helped me years before and I decided to try it again. I took five bottles of Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and since then I have been a well woman, able to take care of my house and family without any trouble or a day's pain. I am ready and thankful to swear by your medicine any time. I am forty-four years old and have not had a day's illness of any kind for three years."

Mrs. H. KOENIG, 617 Ellis Blvd, Cedar Rapids, Iowa.

Sandusky, Ohio.—"After the birth of my baby I had organic trouble. My doctor said it was caused by too heavy lifting and I would have to have an operation. I would not consent to an operation and let it go for over a year, having my sister do my work for me as I was not able to walk. One day my aunt came to see me and told me about your medicine—said it cured her of the same thing. I took Lydia E. Pinkham's Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and they have cured me. Now I do my own housework, washing and ironing and sewing for my family and also do sewing for other people. I still take a bottle of Vegetable Compound every spring for a tonic. I recommend your medicine to others who have troubles similar to mine and you can use my letter if you wish."

Mrs. PAUL PAPENFUSE, 1325 Stone St., Sandusky, Ohio.

JUST AS WELL TO NOTE HOW GREAT A NATION JAPAN HAS BECOME.

In 1900 the population of Japan was 44,815,980. In 1918 it had risen to 57,070,936 for Japan proper and to 78,261,856 with her Colonies included. That makes quite a formidable Power.

Yet there are people who see Japan as she was twenty years ago. The British are not so foolish. Their overseas Dominions are as much opposed to Japanese immigration as we can be. British Columbia is on all fours in this regard with California. But the British are renewing their alliance with this miraculously growing giant of eastern Asia. Professor Longford closes his article on the wonderful progress and vast present power of Japan by asking his British audience: "How can the progress of such a nation ever fail? Is it not better to have it as our Ally, bound by treaty, rather than risk throwing it into the arms of a restored Germany?"

The question of immigration into America is hardly one that will cause trouble if properly treated. The Japanese Government does not want its laborers to leave it for America. That means that Japan loses them when Japan very much needs them. "The gentlemen's agreement" proved the spirit of Japan. She was only too ready to seize upon an excuse for forcibly keeping her people at home. But Japan is very proud. And it is quite possible for us to do exactly what she wants done, but to do it in so offensive a manner that it will become a cause of quarrel. The day is probably coming when Japan will be so strong that the present refusal of the white nations to recognize her racial equality will become dangerous.

But we can keep Japan's friendship; we can keep a fairly open door for our trade in all of Asia, and we can, by a little diplomacy, keep her laborers out of America. We can likewise keep the peace which is worth billions and billions of dollars to us and possibly a million American lives.

Shipbuilding is an industry in which we are taking a new and long overdue interest. The writer of the article we are quoting from—Prof. Joseph H. Longford, in the Nineteenth Century Review—thus describes her advance in this vital department of national independence and power:

There are now four Imperial dockyards in which, with few exceptions, all the ships for the Imperial navy have been built and completely equipped since 1906; and there are five principal private shipyards, in which great extensions have been made since the war, besides many small ones. Since 1806 shipbuilding, as well as navigation, has been heavily subsidized; and since that date the industry has rapidly progressed. In 1917 ninety-seven steamers, all over 1000 tons, of an aggregate 367,900 tons, were built, excluding several passenger steamers of the highest class, all over 8000 gross tonnage; and in 1919 134 steamers, with a total gross tonnage of 619,558, many exceeding 5000 tons and some as large as 11,000 tons, were built in the private yards. As evidence of what the Government dockyards can accomplish, it need only be mentioned that the four largest battleships in the world, each of 40,000 tons, are now under construction. All this has been attained in a country where sixty years ago nothing larger than an unseaworthy wooden junk of fifty tons could be produced.

"WHY BEHOLDEST THOU THE MOTE THOU SEEST IN THY BROTHER'S EYE," ETC.

Never was there more searching test of the intrinsic value of Christian ideals than is now presented by the call of the conditions of our Southern negro population. The necessity for teaching these millions of black people the principles of righteous living is pressing.

In the states of Alabama, Florida, Georgia, Louisiana, Mississippi, South Carolina and Texas, where more than half the negro population of the United States lives, the opportunity to serve is clearly presented.

The total negro population of these seven states is over five and a half millions. The total of negro church membership is not quite two and one-fifth millions, leaving over three and a half millions with no hope of God. This is not because they do not desire to know him, but because they have not been taught how to find him.

Over a million and half of these people are illiterate. Over a million and a half are living in the Blackest Black Belt of the nation, with no mental training, no religious training, no proper preparation to meet the conditions of human life, no hope for future betterment—and thus will they continue so long as those of us who are more fortunate remain inert. Under these conditions their thoughts can have no other than a downward trend.

Never has a greater opportunity for service been offered to a Christian public than that presented by the appalling need of the black man of our own South. It seems incredible that conditions could exist in a land where Christian ideals are cherished by so many of its people. The creation of Christian ideals is the one thing that will fit him to assume the responsibilities of life. Hadn't we better pluck the beam from our own eyes before we behold the mote in our brother's eyes and sing too lustily our missionary hymn:

From Greenland's icy mountains,
From India's coral strand,
Where Africa's sunny fountains
Roll down their golden sand;
From many an ancient river,
From many a plamy plain,
They call us to deliver
Their land from error's chain.

The Russian-Polish situation still challenges the interest of the world, and when we read of the resumption of hostilities after peace negotiations were about to be signed, with the assurance of a free autonomous Poland we are reminded that "there is many a slip betwixt cup and lip."

Emma Goldman, and her troublesome co-workers are now as much dissatisfied with conditions in Soviet Russia, as they were with the manner in which the United States was run. Must be a case of where distance lends enchantment.

OUGA BOARD PICKS CLEVELAND TO WIN SERIES

While many are attempting to solve the dope to decide whether Cleveland will carry off the national baseball ray today or whether Brooklyn will stiffen and force the series into another game, Raymond Goodin, one of the famous Goodin twins, and porter at Coates & McFadden's barber shop, is still resorting to the ouga board to solve the question.

And the ouga board, having been consulted at midnight, which is the proper time for assembling the spirits to your aid in any question of that nature, decided that the American League champs would carry off the championship by defeating Brooklyn and winding up the series.

Fans who know of Goodin's success with the ouga, which has predicted the winning team every game so far, are relying on the information to bring them through the final game. Last Saturday ouga not only decided that Cleveland would win, but went further to state that the score would be 5 to 1, which was the way the final score turned out.

USEFUL BILL.

I watched Old Wilhelm as he wrought, and knocked the state-ly yew trees cold, while down his regal dome of thought the sweat of honest effort rolled. Of old this Wilhelm seemed no good, when he was hoodooed by a crown; yet now he whacks up cords of wood—you cannot keep a good man down. There is no nobler task than his, now coal is scarce and hard to get; I watch him make his bucksaw whiz, and cry, "Old Bill's our one best bet." When he was ruler of a realm he earned no high and rich reward, such as he earns while sawing elm and pulling down six bits a cord; now, when he goes to roost at night, he has no crimes o'er which to fret; the record of his day is white, and Wilhelm is our one best bet. If we'd all do as Wilhelm does, and ply our bucksaws in the sun, the bats that in our belfries buzz would find their futile errands done. We ply the swift and tireless jaw until its hinges creak and smoke, when we should wield the trenchant saw and pile up ricks of helpful oak.

GIRL TESTIFIES TO SHOOTING OF MAN BY DRY OFFICER

New York, Oct. 12.—A dramatic story of the alleged killing of Harry Carlton, a chauffeur, by Stewart McMullen, a prohibition enforcement agent during a raid was told in federal court by Malvina Carini, 18, who declared she was an eye-witness of the shooting, for which McMullen is now on trial, charged with first degree murder.

In describing the shooting, which occurred in her father's home, the girl declared that McMullen had fired upon Carlton while he was crossing a room with "both his hands above his head." She said that the prohibition agent was holding her by her left arm when he fired and that he held the pistol "about two inches from Carlton's head."

The girl said McMullen at the point of his pistol, had forced her to give up \$750 in marked money which Carlton had been paid for liquor by prohibition agents. Carlton, she said, had given her the money for safekeeping.

Is It Yours

THIS IS THE BIRTHDAY OF EDWARD VI

October 12, 1537 Edward VI left no impress at all on the history of England. Yet at no other time was a king more urgently needed to preserve the peace of his country, than during his reign.

Edward was the son of Henry VIII by his third wife, Jane Seymour. A male heir to the throne was the one great desire of the king and of his country. So in the general rejoicing over Edward's birth, there was little time wasted weeping over the death of his mother a few days later.

But the prince was delicate, and few thought he would live long. Yet his education was strenuous enough. By the time he was 13 he knew Latin, French and Greek and had translated a lot of difficult treatises on philosophy.

He was nine when he succeeded to the throne, and he was used by Somerset and Northumberland as a means to gain power. One bribed him with pocket money, another flattered his vanity. At 15 everyone knew he was dying and at 16 he died—leaving the question of an heir to the throne as difficult to solve as it had been before his birth. He upheld the Protestants; his sister Mary, who was to reign next, was an ardent Catholic. He was buried in Westminster by Protestant service while she was having a mass said for him in the Tower.

He is the Prince of Mark Twain's charming story of the "Prince and the Pauper."

DEMOCRATIC WOMEN INDORSE CHAIRMAN IN RALLY MONDAY

Mrs. Charles Gretsinger's appointment by the State Democratic executive committee, as chairman of the Democratic women of Greene County during the present campaign, was indorsed by women, attending a meeting in the assembly room of the court house, Monday night.

Mrs. Gretsinger has been working actively for the Democratic ticket, and under her, many of the precincts of the county had already been organized. Mrs. Henry Norckauer was elected secretary of the women's organization.

Work at completing the organization of the Democratic women in the various precincts of the county was taken up, and arrangements made for workers in most of the districts of the county.

Mrs. J. R. Glynn, of Dayton, a state organizer, took charge of the organization. Mrs. Glynn also made a short talk, explaining briefly the League of Nations pact from the Democratic standpoint, and touching upon the relative achievements of the candidates of the Republican and Democratic parties for president and governor.

Mrs. Kent Hughes of Lima, a state speaker who was expected to be present, did not arrive owing to the fact that state headquarters had given assurance that she would be in Xenia. It was supposed that a misunderstanding regarding the date existed.

Attorney M. J. Hartley, who gave a brief talk owing to the absence of Mrs. Hughes, indorsed the League of Nations as the only kind of a pact that will effectually prevent war. He declared that the Democratic party is 'the party of the people' and that the Republican party is only an offshoot of the old party.

He lauded the record of President Wilson, in particular his record as a war president.

Mrs. Gretsinger announced that a joint rally for men and women will be held in Xenia some time next week. It is expected to make this one of the rousing Democratic meetings of the campaign, and an effort will be made to secure Vic Donahay, candidate for governor as a speaker.

AUNT SUSAN'S LOVE LETTERS

Chapter 140

For the next few days I was in a peculiar state of mind. I blew hot and I blew cold. One moment I was so sure I loved and wanted to marry Kenneth Lawrence, that had it not been for my promise I would have wired him to come for me; the next I was just as sure that I never would marry him, and it was hard to restrain the impulse to write and tell him so.

I said nothing of all this to Mother although I knew from her manner that she understood I was troubled. But we wanted Aunt Susan to have a really pleasant visit, so tactfully agreed to keep our troubles to ourselves while she was there.

We thoroughly enjoyed the opera—Thais. Mary Garden looked and sang beautifully. I was so engrossed in the opera that I had not heard Frank Claxton come in just before the close until Mother spoke to me.

"Mr. Claxton is going to drive us home," she said. "The he spoke to me."

"It is very hard to get a taxi after the opera, so I took the liberty of coming for you. You are not displeased?" The last very low.

"No—it was very kind."

"You look charming tonight."

"Thank you, but it is the first time you have seen me in evening dress—perhaps—"

"It seems to me she floats like a bit of a thistle down. She is entrancing."

We reached home all too soon, but it was late, and we soon separated for the night. But I couldn't sleep.

The opera, Mary Garden, Frank Claxton's compliments, all ran through my mind until almost morning, although I did everything I ever

"Don't try to make me take it back, for I shan't! You are very lovely."

He sat in the back of the box until the opera was over then assisted us with our wraps. Mother really had done wonders for me. An old party dress of silver net had been transformed by her clever fingers into a really fashionable evening gown. She looked stately and every inch a grand dame, while Aunt Susan was comfortable in her best black silk remodeled for her visit to us.

We talked of the opera, of Mary Garden, on our way home, each of us giving Mr. Claxton our individual idea of the singer, as well as the opera.

"It beats all how those singers and actresses keep looking so young," Aunt Susan remarked. "I read Garden's age in the paper, but if she is as old as they said I don't see how she skips around the stage the way she does."

We all laughed at Aunt and then I said:

"It seems to me she floats like a bit of a thistle down. She is entrancing."

er heard of to induce sleep. I repeated the alphabet backwards and forwards, I counted sheep jumping over a wall—all the foolish things we do when we cannot sleep.

In the morning I had a long letter from Kenneth. It was a very nice letter, but nothing in it that I couldn't show Mother and Aunt Susan. So after I had finished it, I passed it over to them, while I hurried into my street things.

"Can't be much of a love letter or she wouldn't let us see it," I heard Aunt Susan say.

"He is a very sensible young man," Mother replied.

"That may all be, but when I was a girl I used to treasure my letters from Sam—my husband—put them under my pillow nights, wear them in the bosom of my dress in the daytime. The other girls I knew were just as silly."

"Girls—especially girls who are out in the world as Zena is are not apt to be very sentimental," Mother said with a sigh. She very seldom spoke of me as working I was "out in the world." I knew the sigh was because of what she felt to be my lost girlhood, the life of hardship I had led. For herself she was resigned but she never ceased longing for the old times for my sake.

I guess most mothers are like that. Tomorrow—Mrs. Stewart's Attitude Toward Work
